

# Children's Bible Activities, Stories, and Poems

## Instructions

1. This is the children's book for the quarter. If you can, have one copy for each child. If you cannot do this, copy extra pages for additional children.
2. It does not matter the time of the year when you start using this book for there are always flowers to study. Check in your area and visit flower shops and nurseries.
3. It would be well to take many walks that you might observe flower gardens, wildflowers or plant a flower garden. If the season is not right, have a flower pot garden in the home.
4. There are more than one page for each day's lesson. You will find activity pages for the lesson and for the nature subject. Do what you have time for.
5. Sing hymns that relate to the lessons, character qualities, and flowers. Sing the song, "Beautiful Flowers," from the song book, *Christ in Song*.
6. The important thing is to start teaching your children to memorize Bible Verses. We recommend the Old King James Version as its words are easier for them to memorize as are metered poems.
