

The Amazing Vacation Bible School Adventure!

May 2021

On May 13, Elder Richard of Rafingora sent me a request that since their mission school was closing for the holidays, could I please make and provide materials for a 10 day Vacation Bible School for them.

I had not even considered doing something like this but I dived into writing! But it was clearly the Lord's own plan, as before I could even get them all ready, messages were coming in from all the groups as well as the Pastor in Botswana and South Africa, all excited to do it as well. The Lord arranged to sent them the news!

There are some groups we have been able to provide with ability to print, however, several do not have this. So the mission-family team had to print materials and send packages by bus transport to groups that had no way to get them. This was all done and sent before the team left for the May Mhondoro seminar. They took materials for the VBS there with them. While Pastor and part of our MMV team were away on this project, the rest of the team held VBS at the home area!

I can't begin to tell you all the amazing blessings the groups have been reporting as they did this for the first time! The children are blest, the teachers and helpers are blest, and some parents are coming out to church because of what their children have reported to them, and they are blest also!

They do VBS 5 days a week, so at present there is another week remaining. We have number counts from many areas but not all yet! When I add up ones so far, it comes to a remarkable 1,876 children!

Friends, these are very poor children and even a printed paper with a story and picture

is very special to them. [Please see the little girl, her mom, and their 'mobile home' in attached photo. They are both attending all meetings! She is holding a little paper in her hand.]

The groups and their leaders are very poor also, yet they excel in their zeal to serve the Lord and teach others! It is truly a privilege to help sow seeds of truth in young hearts! When we go at the Lord's bidding He truly blesses all!

Here is one of our best VBS students with her Mom at their 'mobile home'. They both love the classes.
